**PROSPECT-H. D. CLUB**

The club met with Mrs. Oscar Siegmund May 14th with demonstration of drying fruits and vegetables. Take care in selecting your products and dry thoroughly before storing are two main points in getting good results in drying.

Miss Elliott brought with her three dryers, and explained how to use each one and left blue prints with the food demonstrator. If anyone wants to use them, they are available. We should all dry some vegetables and fruit to save jars and cans.

A delicious lunch was enjoyed by Miss Elliott, Mesdames Chas. Siegmund, Oscar Siegmund, Walter Lehmann, Nolan Lehmann, Joe Peter and Neda Siegmund.

Our next meeting with the agent will be June 11, place to be announced. Demonstration, "First Aid." Would like to see all the community ladies present.

Mrs. Joe Peter.
