Crops and gardens in this section of the County are fairly good. Most people have an abundance of fine Irish potatoes which will mean a lot, as last year most people lost theirs by drowning out. The slow drizzling rains of Monday and Tuesday mornings were very beneficial to all crops and vegetables.

Some farmers have a fine oat and barley crop from last fall's planting.

Victory Council Met.

The Serbin - Northrup combined Agricultural Victory Council met at the school house last Monday night for an interesting discussion.

Miss Elliott, County H. D. Agent, stated that the Serbin 4H Club boys would meet with the Agent Mr. Jack Sloan at the parochial school house on June 11th and as there were several girls who had desired to form a 4H Girls Club, perhaps such could be arranged on the same date. Those wishing to join the 4H Girls Club will please hand in their names to Mrs. Chas. Tschatschula before June 11th and Miss Elliott will be notified.
