Mrs. Annie Tschatschula

J. B. Gersch on Tour

Cpl. J. B. Gersch and a buddy, now stationed in Germany, are on a 15 day furlough and are touring Europe. He wrote his parents that they are having a grand time. The letter was sent from Amsterdam. So far they had been to Copenhagen, Amsterdam, Broussels, Den Haag, Paris, London and Nederland. They went up into the Eiffel Tower, visited Buck-

ingham Palace, and saw the change of guards. They took some moving pictures of it which he hopes will come out fine as a remembrance.

Something of much interest to him were the tulip gardens and the Braussels lace factory where lace is hand woven. He is bringing his mother a handkerchief from there as a souvenir.
