NORTHRUP

Lightening Strikes

Lightening struck in the well pump and the parsonage range during Wednesday morning's rain storm, burning out the large unit in Mrs. Arndt's electric kitchen range and knocking a hole as big as a silver dollar into her water kettle on the stove. But luckily no one was hurt.

2½ Inch Rain

Our community was blessed with a 2½ inch rain early Wednesday morning and for once most stock tanks are filled in about two years. The subsoil too is soaking up a lot of this moisture.
