

The Giddings News

March 18, 1921

SAND via LONG PRAIRIE

We trust a few lines from our community will be welcome to the readers of the News, after being absent so long.

It rained terrible hard in our midst two days of last week. Friday all creeks were out of banks and Pin Oak was awful high, the highest since 1913. It did much damage to the corn lately planted and almost ruined much of the low lands. On Sunday another heavy rain fell which was accompanied by hail and a terrific wind.

Mr. and Mrs. Ernst Wukasch of Loebau visited Mr. John Malke Sunday before last.

Otto Noack was here on a business trip last Monday.

Mr. and Mrs. Biebas were visitors at Winchester Monday.

Mr. John Paulic and Mr. Robt Malke attended church at Serbin last Sunday, and on their return home had to cross a couple of creeks which were filled with water after the big rain, but they say they made the trip all right.

Misses Alvine and Mary Biebas attended church at Serbin last Sunday. On account of the heavy rain and high water, they had to remain until the next day before returning home.

Mr. Will Malke who is in the hospital at Austin is expected home this week.

Robert Malke was busy cleaning up Monday after the whirl wind on Sunday, which blew down many things.

Mr. Aug. Menzel spent Saturday of last week in our community on a business trip.

Word was received from Otto Menzel of Port Arthur last week that they are doing nicely down there. They only moved from here a short while ago. He has a nice position and well located. We all were pleased to hear such News and will be glad to hear from him again.

"SOMEBODY."
