**Serbin 4-H Picnic**

The Serbin 4-H Club boys are to be commended in working out things for themselves. With only little help from their fathers these club boys worked out a very enjoyable family fun night and served hot dogs and sodawater to a large crowd. It was held on the Gus Bamsch farm. After all had eaten the program was as follows:

Gus Bamsch, chairman; Rev. A. Arndt talked on how the people should take care of the soil so that the soil can take care of the people. Teacher H. E. Weiser tried to impress on the boys the importance of having a project so that they could learn to do by doing. Judge Kieke was so full of hot dogs that all he could say was, that he was glad to know that the boys could work out a meeting as good as it was without any help. Sheriff Goodson complimented the boys and their families for having meetings of this type. A picture on safety was shown.
