

TANGLEWOOD NOTES

Tanglewood, Tex., Oct. 12 '20
For The News:

With dry weather and pleasant weather, the gathering of crops has proceeded rapidly. Cotton is about all out, and it is estimated at an average of one bale to six or seven acres. The planters sold the crop as fast as ginned until pressing debts were liquidated, since then the disposition is to hold. Corn is a good average crop, but sweet potatoes and gubas are light, owing to the late summer and fall drouth.

Quite a number of families have moved away and others are planning to go, so that it appears that more land will be out the coming year than this one.

We are sorry to chronicle the death of Stark Evans last week, and yesterday a little child of Frank Wheelus' was buried, said to have died from diphtheria.

Mr. Mobley preached his last sermon here Sunday. He is preparing to move to Blanco Co.

Mr. Wm. McIntosh of Giddings preached the morning sermon at the Baptist church.

Mr. Jackson of Temple preached in the afternoon at the Presbyterian church. He is an Evangelist for the Christian Church.

"OBSERVER."
