Esteemed Volksblatt!

We finally got winter. On January 7, we had the first heavy snowfall, which in places was 5 inches deep, and which also resulted in some frost. Tomorrow, January 12 we have our national elections, and our railroad officials who serve on election day, get substitutes. The railroad gate keeper gets 2 Marks and 20 Pfennig a day. The order of the day here now is election noise, masked balls, Bock Beer Festivals, toboggan runs and ice sports. Nobody talks anymore about the rise of prices or bad times, which is something of the past. And not many say anything about a couple of dry months in the summer, if only we have peace in our country.

With sincere greetings to the reader,

The Railroader
