

## Return From 3,000 Mile Vacation Trip

Mr. and Mrs. Frank Grossmann of Houston, accompanied by Mrs. Grossmann's mother, Mrs. Willie Peschke, Sr. of Grassyville returned Tuesday, October 6 from a 3,000 mile vacation trip, which led them through several northern States.

They left Monday, September 28 and visited in Little Rock, Arkansas. Among the various places of interest they noticed the red cotton stalks, for miles nothing but red cotton, which were just beginning to open.

From there they went to Tennessee, they visited the General Andrew Jackson home, which created quite an interest to the Texans.

They also visited in Kentucky, where they saw the Mammoth Cave which offers many beautiful sights. Kentucky is a tobacco country and they saw huge tobacco plantations there.

After touring through some of the main places of interest they returned to Texas and to Houston where they spent several days before accompanying Mrs. Peschke to her home in Grassyville:

They reported having had a wonderful trip, with no car trouble, not even a flat tire during their 3,000 mile trip.
