HORSE BRINGS TOP PRICE

W. T. Wilson sold his saddle horse this week for \$200 to Houston parties for use on the polo fields. The horse was seen by the strangers while passing through Giddings and they inquired the price. Will was not anxious to sell the animal, and replied: "Not less than \$200." The next day they came back with a trailer and the price. The horse was very pretty and would be admired by any one loving a horse. The U. S. government is buying cavalry horses in West Texas, paying \$90 a head for horses 4-7 yrs. old, weighing 200-1000 lb. and 14-15 hands high.
