

FAIR NOTES

As the time is drawing near for the fair this is a reminder to those who have any exhibits in the ladies' department. It has been the custom of some in the past to wait for the committees in the different departments to collect the exhibits but it would be much better for all for each one having an exhibit to take it to the head of the department so that she may register same, thus saving her so much confusion at the opening. For those who live out of Giddings, investigate and find who in your immediate vicinity are on the committee under which head your exhibit will come, and send your exhibits to them.

The committees of the departments may get their booths in readiness for the opening at any time by getting in touch with the secretary, Geo. Placke.

Entries are coming in in the fancy work department, and Mrs. A. P. Hilsberg, chairman of that department requests that all entries be made as early as possible and not later than Tuesday, October 13th as the judges will be here to judge that department on Wednesday the 14th in order that everything will be in readiness for the opening day October 15th.

For the benefit of those who have not catalogues and do not know who the members of the committees of the departments are, a list of them is here given:

Fancy Work.

Mrs. A. P. Hilsberg, Chairman; Mrs. Curtis Parker, Mrs. Lee Riggs, Lexington. Those living in or near Lexington having exhibits in this department may take them to either of the two mentioned above. **—o—
ANTIQUE**

Mayor Hillsman's pocket knife was purchased from I. J. Fariss in the Grange Store in November 1887. It has been in continual use except for about a year and a half and is now in excellent condition. Each blade is worn down very thin and narrow, but the metal is true steel. He uses it every day now, and the time it was not in use was when Mr. Hillsman was in the machinery and belting business and used a heavier knife for cutting belting.
