Will again send in a short report to the *Volksblatt*.

Last Sunday there was right summer weather here, and on Monday it was the opposite: a strong norther with a dense sandstorm. On Tuesday morning the water pipes were all frozen, and the sky was clear. Yesterday and again this morning there was ice on the water. I have often thought of Giddings and La Grange, how cold it probably was there.

Until now I have been with my son August and family.

That is all for this time.

With greetings to all
